

KOSTER Turbo Retarding Agent

Retarder for KOSTER Turbo System

Features

KOSTER Turbo Retarding Agent is an additive for the KOSTER Turbo System used to extend the setting time of KOSTER Turbo Mortars. One bag of KOSTER Retarding Agent will increase the pot life of one 55 lb bag of KOSTER Turbo Mortar by approximately 20 minutes. Up to 3 bags of KOSTER Retarding Agent can be added to each bag of KOSTER Turbo Mortar.

Fields of Application

KOSTER Retarding Agent is used to adjust the pot life and workability of KOSTER Turbo Mortar.

Application

Mix one 55 lb bag of KOSTER Turbo Mortar according to the respective Technical Data Sheet. After mixing the material, add KOSTER Retarding Agent slowly and evenly while mixing. Mix for at least one more minute.

Coverage

1-3 bags KOSTER Retarding Agent per 55 lb bag of KOSTER Turbo Mortar

Cleaning

Clean tools immediately after use with water.

Packaging

C 718 025 25 gram bag

Storage

Store in a cool, dry place. In originally sealed bags, the material can be stored for 6 months.

Safety

Consult Safety Data Sheet. Always wear proper personal protective equipment when handling this product.

Limited Warranty

KOSTER warrants that its product shall be in accordance with the specifications published in the current revision of the products data sheet. KOSTER covenants that in the event any of its products fail to meet their published specifications, KOSTER shall replace those products proved to be defective. KOSTER shall not be responsible for any incidental or consequential damages due to the breach of its warranties. Notwithstanding the foregoing, KOSTER's sole liability hereunder shall not exceed the cost of the defective product originally purchased. EXCEPT AS SET FORTH ABOVE, KOSTER MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED AND MAKES NO WARRANTY AS TO THE MERCHANTABILITY OR FITNESS OF THE PRODUCT FOR A PARTICULAR PURPOSE. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON

THE FACE HEREOF. The user must determine if the product is suited for the intended use and the user must bear the risks and liabilities associated with it.

The information contained in this technical data sheet is based on the results of our research and on our practical experience in the field. All given test data are average values which have been obtained under defined conditions. The installer is responsible for the correct application taking into consideration the specific conditions of the construction site and the final results of the construction process. This may require adjustments to the recommendations given here for standard cases. Specifications made by our employees or representatives which deviate from the specifications contained in any Company literature may not be relied upon in the absence of written confirmation from the Company. The installer must comply with all testing, technical requirement, guidelines, and industry customs at all times. The terms, conditions, and limitations contained in the written warranty for the product controls over the specifications contained herein. This guideline has been technically revised; all previous versions are invalid.
