

KOSTER Facade Cleaning Cream

Cleaning agent for mineral surfaces

Features

KOSTER Façade Cleaning Cream is a liquid, pasty cream which removes scaling and efflorescence from mineral substrates. It also cleans many other materials and surfaces quickly and effectively. KOSTER Façade Cleaning Cream is made from natural, renewable raw materials. Due to its creamy consistency, the material covers the surface excellently and does not drip. The long contact time helps to dissolve tough stains and soiling.

Technical Data

Viscosity	Approx. 2000 - 3000 cps
Contact time	Approx. 5 - 10 min.
Density	9.18 lb/gal

Fields of Application

KOSTER Façade Cleaning Cream is suited for façades, paving stones, and natural stone. KOSTER Façade Cleaning Cream is not suitable for acid-sensitive surfaces like marble, calcareous sandstone, lime, brick, and certain types of tile. KOSTER Façade Cleaning Cream can lighten the substrate. Always apply a test area to test for changes in shade.

Application

Apply KOSTER Façade Cleaning Cream with a soft brush or roller. Typical contact time is between 5 and 10 minutes. Do not allow the material to dry onto the surface. Keep the surface moist. Dried KOSTER Façade Cleaning Cream can be re-activated with a wet scrubbing brush. After the contact time, brush off the surface with a coarse scrubbing brush with ample amounts of water, or with a pressure washer until all residue is removed.

Coverage

Approx. 0.02 - 0.05 lb/sq ft; depending on substrate.
Approx. 185-450 sq ft/gal

Cleaning

Clean tools with water.

Packaging

P 110 005 11 lb bucket

Storage

KOSTER Façade Cleaning Cream can be stored for approximately 2 years.

Safety

Consult Safety Data Sheet. Always wear proper personal protective equipment when handling this product.

Limited Warranty

KOSTER warrants that its product shall be in accordance with the specifications published in the current revision of the products data sheet. KOSTER covenants that in the event any of its products fail to meet their published specifications, KOSTER shall replace those products proved to be defective. KOSTER shall not be responsible for any incidental or consequential damages due to the breach of its warranties. Notwithstanding the foregoing, KOSTER's sole liability hereunder shall not exceed the cost of the defective product originally purchased. EXCEPT AS SET FORTH ABOVE, KOSTER MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED AND MAKES NO WARRANTY AS TO THE MERCHANTABILITY OR FITNESS OF THE PRODUCT FOR A PARTICULAR PURPOSE. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF. The user must determine if the product is suited for the intended use and the user must bear the risks and liabilities associated with it.

The information contained in this technical data sheet is based on the results of our research and on our practical experience in the field. All given test data are average values which have been obtained under defined conditions. The installer is responsible for the correct application taking into consideration the specific conditions of the construction site and the final results of the construction process. This may require adjustments to the recommendations given here for standard cases. Specifications made by our employees or representatives which deviate from the specifications contained in any Company literature may not be relied upon in the absence of written confirmation from the Company. The installer must comply with all testing, technical requirement, guidelines, and industry customs at all times. The terms, conditions, and limitations contained in the written warranty for the product controls over the specifications contained herein. This guideline has been technically revised; all previous versions are invalid.
